Building Strong Foundations for a Sustainable Future

Company Introduction

BKD ARCON PVT LTD is a construction and infrastructure company providing solutions across solar infrastructure, civil construction, industrial security, and facility management.

With a strong focus on quality, safety, sustainability, and timely execution, the company delivers dependable solutions for large-scale industrial and infrastructure projects.

Who We Are

We are a project-focused organization committed to supporting clients through reliable execution, effective site management, and practical infrastructure solutions. Our work brings together civil construction capability, solar infrastructure expertise, security support, and facility management services under one organization.

What We Do

Solar EPC & Infrastructure Solutions

Civil & Site Development Works

Industrial Security Services

Electronic Security Solutions

GROWTH & EXPANSION

Growing Through Capability and Execution

Our growth has been shaped by continuous involvement in diverse project requirements and the ability to support clients across different stages of infrastructure development.

Capability Progression

Our Direction

BKD ARCON continues to strengthen its capabilities by expanding its service portfolio, improving execution capacity, and supporting larger and more diverse infrastructure requirements.

Building A Better Tomorrow

With a Clear Vision
and a Strong Mission

Our Vision

To build a strong and trusted presence in infrastructure and project services by delivering reliable solutions that support sustainable growth and long-term development.

Our Mission

To provide quality-driven, safe, and dependable solutions across solar infrastructure, construction, security, and facility management through efficient planning, responsible execution, and customer-focused service.

Why Clients Choose BKD ARCON

BKD ARCON combines project understanding, execution capability, and a practical approach to support diverse infrastructure requirements.

Our Strength

STRONGER CAPABILITIES
FOR A BRIGHTER TOMORROW

01 Multi-Service Capability

Solutions across infrastructure, security, and facility management.

02 Project-Focused Approach

Understanding site requirements and supporting efficient execution.

03 Quality-Oriented Execution

Maintaining attention to workmanship and project requirements.

04 Safety Consciousness

Promoting responsible practices across project activities.

05 Flexible Support

Ability to support different types of project requirements.

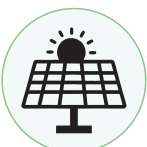

06 Client Commitment

Focused on reliable coordination and long-term professional relationships.

Our Presence Across Critical Infrastructure Sectors

Industries We Serve

BKD ARCON supports projects across

Solar Power

Renewable Energy

EPC Projects

Industrial Development

Infrastructure Development

Government Projects

Utility Sector

Our Approach

Plan Efficiently. Execute Reliably. Deliver Responsibly.

Four Integrated Business Verticals

Guiding Our Journey.
Strengthening Our Future,

Solar EPC & Infrastructure

Comprehensive support for solar project infrastructure, civil works, foundations, installation activities, and project execution.

Industrial Security Services

Physical and electronic security solutions designed to support industrial sites, assets, materials, and project infrastructure.

Facility Management

Manpower, housekeeping, site support, traffic management, labour colony management, and facility maintenance services.

Equipment & Resources

Reliable equipment, machinery, site vehicle, survey instruments, testing equipment and skilled workforce support for efficient project execution.

SOLAR EPC SOLUTIONS

From Planning to Project Handover

BKD ARCON supports solar projects through structured EPC and execution activities.

INFRASTRUCTURE
TODAY
A SUSTAINABLE
TOMORROW

Turnkey EPC Solutions

Coordinated project support from planning through execution and handover.

Engineering

Technical planning based on project and site requirements.

Design

Supporting the development of practical project solutions.

Procurement

Coordinating material and project requirements.

Construction

Executing infrastructure and construction activities.

Installation

Supporting installation requirements for project systems.

Testing

Checking completed systems and project components.

Commissioning

Supporting project readiness and operational transition.

Handover

Structured completion and transfer of completed works.

Operations & Maintenance

Supporting ongoing operational and maintenance requirements.

Resources That Support Project Execution

Effective execution requires the right combination of equipment, technical resources, and skilled personnel.

Our Resource Capability

Construction Equipment

Equipment supporting civil, structural, foundation, and site development activities

Site Vehicles

Transportation and site-support vehicles enabling smooth movement of materials, equipment, and personnel.

Survey Instruments

Survey and measurement resources supporting accurate site setting-out and execution.

Skilled Workforce

Experienced site personnel, supervisors, technicians, and supporting teams for project execution.

Our Approach

Right Resources. Right Site. Right Execution.

Resources are deployed according to project requirements, scope, site conditions, and operational needs, helping ensure efficient, coordinated, and timely project execution.

SUSTAINABILITY

Building Responsibly for the Future

BKD ARCON recognizes the importance of responsible infrastructure development and sustainable practices. We aim to create long-term value by integrating environmental awareness, efficient resource use, and responsible construction methods across our projects.

Our Commitment

Green Construction

Supporting efficient construction practices and responsible resource use.

Renewable Energy

Contributing to infrastructure development within the renewable energy sector.

Environmental Responsibility

Promoting awareness of environmental considerations across project activities.

Sustainable Development

Supporting infrastructure solutions that contribute to long-term development.

Moving Forward with Purpose

BKD ARCON aims to continue strengthening its capabilities and expanding its presence across infrastructure-related sectors. We remain committed to creating lasting value for our clients, communities and stakeholders.

Our Future Focus

Expansion Strategy

Strengthening operational capabilities and service coverage across existing and new markets.

Business Growth

Developing opportunities across infrastructure and project services.

Technology Adoption

Exploring practical technologies that improve planning, monitoring, and execution.

Wider Presence

Working toward an expanded presence across new project locations and markets.

Long-Term Goals

Building a sustainable and dependable organization for continued growth.
